

§ 1415.5

7 CFR Ch. XIV (1–1–10 Edition)

a rental contract option and an easement enrollment option at the same time. The rental contract shall be terminated prior to the date the easement is recorded in the local land records office.

(l) Rental contract participants are required to suspend any existing cropland base and allotment history for the land under another program administered by the Secretary.

(m) Easement participants are required to eliminate any existing cropland base and allotment history for the land under another program administered by the Secretary.

[74 FR 3870, Jan. 21, 2009, as amended at 74 FR 42174, Aug. 21, 2009]

§ 1415.5 Land eligibility.

(a) GRP is available on privately owned lands, which include private and Tribal land. Publicly owned land is not eligible.

(b) Land is eligible for funding consideration if the NRCS State Conservationist determines that the land is:

(1) Grassland, land that contains forbs, or shrubland (including improved rangeland and pastureland) for which grazing is the predominant use; or

(2) Located in an area that has been historically dominated by grassland, forbs, or shrubland, and the State Conservationist, with advice from the State Technical Committee, determines that it is compatible with grazing uses and related conservation values, and—

(i) Could provide habitat for animal or plant populations of significant ecological value if the land is retained in its current use or is restored to a natural condition;

(ii) Contains historical or archeological resources; or

(iii) Would address issues raised by State, regional, and national conservation priorities.

(c) Incidental lands, in conjunction with eligible land, may also be considered for enrollment to allow for the efficient administration of an easement or rental contract. Incidental lands may include relatively small areas that do not specifically meet the eligibility requirements, but as a part of the land unit, may contribute to grassland functions and values and related

conservation values, or its inclusion may increase efficiencies in land surveying, easement management, and monitoring by reducing irregular boundaries.

(d) Land will not be enrolled if the functions and values of the grassland are already protected under an existing contract, easement, or deed restriction, or if the land already is in ownership by an entity whose purpose is to protect and conserve grassland and related conservation values. This land becomes eligible for enrollment in the GRP if the existing contract, easement, or deed restriction expires or is terminated and the grassland values and functions are no longer protected.

(e) Land on which gas, oil, earth, or other mineral rights exploration has been leased or is owned by someone other than the applicant may be offered for participation in the program. However, if an applicant submits an offer for an easement project, USDA will assess the potential impact that the third party rights may have upon the grassland resources. USDA reserves the right to deny funding for any application where there are exceptions to clear title on the property.

§ 1415.6 Participant eligibility.

To be eligible to participate in GRP, an applicant, except as otherwise described in § 1415.17:

(a) Must be a landowner for easement participation or be a landowner or have control of the eligible acreage being offered for rental contract participation;

(b) Agree to provide such information to USDA that is necessary or desirable to assist in its determination of eligibility for program benefits and for other program implementation purposes;

(c) Meet the Adjusted Gross Income requirements in 7 CFR part 1400 of this title, unless exempted under part 1400 of this title; and

(d) Meet the conservation compliance requirements found in part 12 of this title.

§ 1415.7 Application procedures.

(a) Applicants, except as otherwise described under § 1415.17, may submit an application through a USDA Service Center for participation in the GRP.
